Thank you for your progress reports of 3 and 11 February 1948.

I am happy to see that you are making the necessary contacts and preliminary investigations preparatory to beginning work on the Island itself.

With reference to the second paragraph of your miscellaneous remarks on page two of the 11 February report, I think it is unnecessary to remind you that we should like to be kept informed here of any modifications of the plans as formulated here, not only for the operations building, but also for antenna field and other aspects of the project.

Sincerely,

L. K. WHITE
